BOARD OF PUBLIC WORKS  
Fort Wayne, Indiana  
Robert W. Williams  
George L. Williams

May 15, 1968

Mr. Joseph A. Williams  
Attorney At Law  
821 Gettle Building  
Fort Wayne, Indiana

Subject: Sewer Easement Resolution No. 31 - 1968

Dear Mr. Williams:

This is in response to the remonstrance filed by you on the above resolution on behalf of Kelly and Wanda Arnett on May 9, 1968. We have reviewed your claims and offer the following comments:

1. Our Engineering Department had staked the limits of the prescribed easement and found that the contractor stayed within this easement with one small exception. This exception did not destroy any trees.
2. The number of trees removed is far less than was claimed by Mr. Arnett. Our engineers walked this area prior to construction and have a good recollection of the trees that were removed. In addition, the piles of trees remain on the site and it is quite easy to review these.
3. The temporary easement does not preclude the placing of any permanent structures. In regards to the permanent easement, we point out that building code requires that all permanent structures be placed a minimum of 10% of lot width from any side line. The Arnett property has a frontage of approximately 270 feet. Therefore, the minimum side yard would be 27 feet.
4. The sewer unquestionably enhances the value of the property.
5. There is no direct assessment on this property. However, a connection charge must be paid at the time the property is developed, and connects to said sewer. This connection charge is based on an area charge of \$300 per acre, plus a local charge of \$3.30 per l.f. of sewer located in the property. Using this formula, the connection charges for the Arnett property are as follows:

Area Charge: 5 acres x \$300 per acre = \$ 1,500.00

Local Charge: 1,112 l.f. x \$ 3.30 per l.f. 3,669.60

Total Connection Charge 5,169.60

Mr. Joseph A. Williams  
Page Two  
May 15, 1968

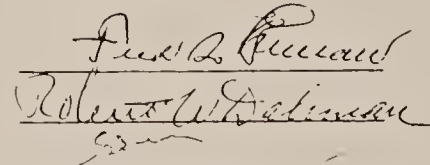

Subject: Sewer Easement Resolution No. 31 - 1968

In view of the above facts, we submit the following proposal:

1. The connection charges for the Arnett property be broken into two parts. One for the front 2 acres, which is the area on which Mr. Arnett indicated he would build, and the second being the balance. This front 2 acres would carry a connection charge of \$1,590, based on the above described formula.
2. This Board will reduce the connection charge for the front 2 acres from \$1,590 to \$790, allowing \$800 for consideration of obtaining the easement. This amount - \$790 - to be paid at the time the front 2 acres is developed, and connects to said sewer.
3. The connection charge for the balance of the property will be paid as it is developed, and connects to the sewer.
4. In consideration of the reduced connection charge, the Arnetts will withdraw their remonstrance and accept the decision of the damages equal to the benefits.

We trust the above will meet with your approval. If this proposal is not accepted within 20 days from this date, it is null and void.

Yours truly,

  
Robert W. Robinson

Board of Works

cc: Mr. Ron Bonar  
Mr. W. H. Meitz
